EXCELLENCE IN LEADERSHIP, INNOVATION AND INCLUSION AWARDS

Doctor of Nursing Practice Exemplary Project Award

This award represents quality improvement project excellence in a clinical setting by a student. The recipient is nominated and chosen by the faculty.

Dr. Susan E. Stone Excellence in Leadership and Student Success Award

This award recognizes students who have made outstanding contributions and demonstrated exemplary leadership toward advancing Frontier Nursing University's mission and goals, while also achieving notable academic and professional success in their educational journey.

Excellence in Leadership and Innovation Awards

These awards recognize students who have demonstrated exceptional commitment and excellence in leadership, innovation, inclusion, and the advancement of FNU's mission.

ACADEMIC APPAREL AND TRADITIONS

GOWNS

The master's gown is black and has an oblong sleeve, open at the wrist, hanging down in the traditional manner. The rear is square cut, and the front has an arc cutaway. The doctoral gown has bell-shaped sleeves. The material may vary, and black is recommended. The gown is front-faced with velvet; three bars of velvet are used across the sleeves. Facings and crossbars may be of the color distinctive to the discipline, matched with the binding or edging of the hood appropriate to the particular doctoral degree.

HOODS

In all cases, the hood is black and must be the same material as the gown. Hoods are lined with official university colors. The colors for Frontier Nursing University are blue and white. The hood length for the master's degree is three and one-half feet; for the doctor's degree, four feet. Only doctoral hoods shall have panels at the sides. Hood binding is to be velvet, three inches and five inches for the master's and doctor's degrees, respectively; the color indicates the discipline to which the degree pertains. The color associated with Nursing –the discipline for this university – is apricot

CAPS

In all cases, the cap is black and is to be worn indoors and out. Caps are made of fabric matched to the gown; velvet is appropriate for doctoral degrees only. Mortarboards are generally recommended for a master's degree. A tassel is to be fastened to the midpoint of the top of the cap only. The tassel should be black or the color appropriate to the university, with the exception of the doctor's cap, which may have a tassel of gold. For the master's degree recipient, the tassel is worn on the right until the degree is conferred. It is then moved to the left front quarter.

COMMENCEMENT ADDRESS

Susan B Hassmiller, PhD, RN, FAAN **Founder and Principal,** **Sulu Coaching and Consulting**

Dr. Susan Hassmiller is a national leader in nursing, health equity, and leadership development. She has devoted her career to strengthening the nursing profession, improving population health, and advancing

health equity. During her 25 years at the Robert Wood Johnson Foundation (RWJF), she shaped and led the Foundation's nursing strategies in an effort to create a higher quality of care in the United States for people, families and communities. Drawn to the Foundation's "organizational advocacy for marginalized and under-resourced populations," Hassmiller helped to assure that RWJF's commitments in nursing have a broad and lasting national impact.

She served as the Senior Adviser for Nursing and the Senior Scholar-In-Residence/Senior Adviser to the President at the National Academy of Medicine (NAM). She helped to lead the landmark reports at NAM on the Future of Nursing – the 2010 Future of Nursing: Leading Change, Advancing Health and The Future of Nursing, 2020-2030: Charting a Path to Achieve Health Equity. She also established and served as the director of The Future of Nursing: Campaign for Action, a nationwide initiative led by AARP, the AARP Foundation, and RWJF, to transform health and health care through nursing to build a healthier America.

Previously, Hassmiller served with the Health Resources and Services Administration, where she was the executive director of the U.S. Public Health Service Primary Care Policy Fellowship and oversaw other national and international primary care initiatives. She also has worked in public health settings at the local and state levels and taught community health nursing at the University of Nebraska and George Mason University in Virginia.

Hassmiller has held leadership positions in some of the nation's most prominent health care organizations. She served on the Board of Governors of the American Red Cross, is an elected member of the National Academy of Medicine, and is a fellow in the American Academy of Nursing, where she holds the Living Legend status. She sits on other advisory committees and boards, including the Hackensack Meridian Health System, UnitedHealth Group, Carrier Clinic, the Nurses on Boards Coalition, and the University of North Carolina School of Nursing. She has received many awards and four honorary doctorates, including the Florence Nightingale Medal, the highest international honor given to a nurse by the International Committee of the Red Cross.

She is a Hudson/ICF certified Executive/Leadership Coach and Founder and Principal of Sulu Coaching and Consulting with a practice focused on health care leaders.

Hassmiller received a PhD in nursing administration and health policy from George Mason University, master's degrees in health education from Florida State University and community health nursing from the University of Nebraska Medical Center, and a bachelor's degree in nursing from Florida State University.

She lives in Cary, North Carolina, with her husband and co-founder of Sulu Coaching. She enjoys hiking, traveling, and spending time with her extraordinary grandchildren, who live nearby.
